- Cameron Mead -

Third year student at Rochester Institute of Technology looking to drive innovation in cutting edge companies by applying skills in embedded systems and full stack software engineering.

EDUCATION

Rochester Institute of Technology

- Bachelor of Science in Software Engineering *Expected Graduation May 2029*

SKILLS

Coursework

- Embedded Systems, Database Engineering, Design Pattern Application, Project Management, Full Stack Engineering, Subsystem Design, Object Oriented Programming, Web Development

Languages

- Java, Python, C, C++, JS/TS, HTML, CSS, Go, SQL, Bash, ARM Assembly

Tools

- VSCode/Code OSS, Eclipse, STM32CubeIDE, PGAdmin, GitHub, Gitlab
- PostgreSQL, MySQL, MongoDB, Git
- Arduino, Raspberry Pi, STM32, Microsoft Windows, Linux

Other Skills

- Scrum, Scrumban, Kanban, Waterfall, UML, Trello, Slack, Discord, Microsoft Teams
- Highly Organized, Communicative Teammate, Natural Leader, Effective Follower

PROJECTS

RIT CubeSat Team, Project Lead, Team Lead *August 2024 - Present*

- Applied Skills : Project Management, Team Leadership, Embedded Design, Electrical Engineering, Computer Hardware, Orbital Mechanics
- Lead team in designing and fabricating RIT's first CubeSat, with a number of preparatory projects
- Directly managed design, construction, and software projects, as well as managed other PMs
- Create robust hardware interface embedded software on a variety of controllers (including STM32) applying skills in embedded C and Python

Catalog Keeper, Solo Developer *November 2025 - Present*

- Applied Skills : JSON file formats, front end design, C library creation
- Developed and optimized multiple custom file formatting systems and complex data I/O to serve as a versatile project-agnostic toolset to create a performant and readable persistence layer

Nail-It-Down, Solo Developer *May 2025 - November 2025*

- Applied Skills : Object Oriented Design, Pattern Application, Web Design, Full Stack Development
- Created a personalized productivity manager for keeping track of assignments and projects
- Taught myself MySQL, database design, and applied and strengthened skills in Java, HTML, CSS

HARP PTUI Adventure Game, Lead Developer *August 2025 - December 2025*

- Applied Skills : Database Engineering, Web Design, Full Stack Development, Scrum
- Designed pattern oriented subsystems for turn based terminal game in Java
- Implemented, debugged, and refactored designs in five person team

EXPERIENCE

Town of Littleton MA Dept. of Public Works, Full Time Seasonal *June 2026 - August 2026*

- Applied Skills : Independent operation, punctuality,
- Mostly worked with the parks department doing landscape work and lawn maintenance around town, operated almost entirely on my own managing completing different jobs and ensuring equipment was well maintained and functioning.
